Attachments A and B are incorporated by reference herein.

3. The facts set forth in this affidavit are based upon my personal observations, my training and experience, and information obtained from various law enforcement personnel and witnesses. This affidavit is intended to show merely that there is sufficient probable cause for the requested warrant and does not purport to set forth all of my knowledge of or investigation into this matter. Unless specifically indicated otherwise, all conversations and statements described in this affidavit are related in substance and in part only.

II. TRAINING AND EXPERIENCE

4. I am a Task Force Officer ("TFO") with the United States Postal Inspection Service ("USPIS") and have been so since November 2021. I am currently assigned as a TFO to the Contraband Interdiction and Investigations South Team of the Los Angeles Division, which is responsible for investigating drug

trafficking involving the United States Mail. Accordingly, I am an "investigative or law enforcement officer" of the United States within the meaning of Title 18, United States Code, Section 2510(7). Specifically, I am an officer of the United States empowered by law to conduct investigations of, and to make arrests for, offenses enumerated in Title 18, United States Code, Section 2516. Prior to being assigned as a TFO with the USPIS, I worked patrol as a full-time sworn law enforcement officer with the Chino Police Department.

5. I have received training and have experience investigating violations of state and federal narcotics and money laundering laws. I have been involved in various electronic surveillance methods including state and federal wiretap investigations, the debriefing of informants and witnesses, as well as others who have knowledge of the manufacturing, distribution, transportation, storage, and importation of controlled substances, and the laundering of drug proceeds. I have participated in many aspects of drug investigations, including investigations into the smuggling of illegal drugs, money laundering, and extortion related to drug trafficking. I am familiar with narcotics traffickers' methods of operation, including the manufacturing, storage, transportation, and distribution of narcotics, the collection of money that represents the proceeds of narcotics trafficking, and money laundering. I am familiar with how drug traffickers use counter-surveillance techniques to avoid detection by law enforcement.

III. SUMMARY OF PROBABLE CAUSE

6. Between May 14, 2024, and May 17, 2024, during routine parcel inspections at the City of Industry USPS Processing and Distribution Center in Los Angeles County, California, I identified the **SUBJECT PARCELS** as meeting some of the following criteria common to packages containing contraband, including that they were excessively taped, contained handwritten labels, lacked business account numbers, and, according to law enforcement databases, contained sender and recipient names that were not associated with their respective listed addresses.

7. Additionally, on May 21, 2024, a trained drug detection dog alerted to each of the **SUBJECT PARCELS** for the presence of drugs or other items, such as the proceeds of drug sales that have been contaminated by drugs.

IV. STATEMENT OF PROBABLE CAUSE

A. Background on Use of Mails for Drug Trafficking

8. Based on my training and experience as a TFO, and the experiences related to me by Postal Inspectors who specialize in drug investigations, I know the following:

a. Los Angeles is a significant source area for controlled substances. Controlled substances are frequently transported from the Los Angeles area via US Mail, and the proceeds from the sale of controlled substances are frequently returned to the Los Angeles area via US Mail. These proceeds are generally in the form of money orders, bank checks, or similar monetary instruments in an amount over \$1,000. Based on my training and experience, I know that proceeds from the sale of

controlled substances often contain the odor of drugs because they have been contaminated by or associated with the odor of one or more drugs.

b. Drug distributors often use USPS Priority Mail Express, which is the USPS overnight/next day delivery mail product, or Priority Mail Service, which is the USPS two-to-three-day delivery mail product. Drug distributors use the Priority Mail Express delivery service because of its speed, reliability, and the ability to track the parcel's progress to delivery. Drug distributors use the Priority Mail delivery service because it provides them more time for travel between states if they decide to follow their shipments to their destination for distribution. Also, by adding delivery confirmation to a Priority Mail parcel, drug traffickers have the ability to track the parcel's progress to the intended delivery point, as if the parcel had been mailed using the Priority Mail 2-Day Service.

9. The following indicia suggest that a parcel may contain drugs or drug distribution proceeds:

a. The parcel is contained in a Large Flat Rate cardboard box;

b. The parcel bears a handwritten or typed label, whether USPS Express Mail or Priority Mail;

c. The handwritten or typed label on the parcel does not contain a business account number;

d. The seams of the parcel are all taped or glued shut;

e. The parcel emits an odor of a cleaning agent or adhesive or spray foam that can be detected by a human; and

f. Multiple parcels are mailed by the same individual, on the same day, from different locations.

10. Parcels exhibiting such indicia may be subject to further investigation, which may include verification of the addressee and return addresses.

11. I know from my training and experience that drug traffickers often use fictitious or incomplete names and addresses in an effort to conceal their identities from law enforcement officers investigating these types of cases. To the extent that real addresses are ever used, it is only to lend a legitimate appearance to the parcel and is almost always paired with a false name.

B. Initial Investigation of the SUBJECT PARCELS

12. Between May 14, 2024, and May 17, 2024, during routine parcel inspections at the City of Industry USPS Processing and Distribution Center in Los Angeles County, California, I determined that the **SUBJECT PARCELS** met some of the initial suspicious characteristics as described above. C. Drug-Detection Dog Alerts to the SUBJECT PARCELS

13. On May 21, 2024, based on the suspicious characteristics of the **SUBJECT PARCELS**, El Monte Police Department Officer Adam Girgle had his trained drug detection dog, "Rico," examine the exterior of the **SUBJECT PARCELS**. I learned from Officer Girgle that Rico gave a positive alert to

SUBJECT PARCEL 1 through SUBJECT PARCEL 9 separately, indicating the presence of controlled substances or other items, such as the proceeds of controlled substances, which have been recently contaminated with the odor of controlled substances. Attached hereto as Exhibit 1, which I incorporate fully herein by reference, are documents setting forth information provided by Officer Girgle regarding Rico's training and history in detecting controlled substances, and the examination of **SUBJECT PARCELS 1 through 9**.

V. CONCLUSION

14. For the reasons above, there is probable cause to believe that the **SUBJECT PARCELS**, as described in Attachment A, contain evidence, fruits, and instrumentalities of violations of Title 21, United States Code, Sections 841(a)(1) (distribution and possession with intent to distribute a controlled substance); 846 (conspiracy to distribute or possess with intent to distribute a controlled substance); and 843(b) (unlawful use of a communication facility, including the mails, to facilitate the distribution of a controlled substance), as described in Attachment B.

EXHIBIT 1

AFFIDAVIT

I, Officer Adam Girgle, being duly sworn, declare and state as follows:

I have been a Police Officer with the El Monte Police Department since December of 2003. I have handled and/or assisted with hundreds of narcotics investigations. I have assisted Federal and State narcotics task forces with large scale narcotics investigations. I graduated from the Los Angeles County Sheriff's Department Academy in May of 2001. I attended the Adlerhorst Police Canine Handler course in August of 2016.

I also attended the Adlerhorst Canine Narcotics Detection course in November of 2017. During these courses, my police canine partner Rico and I received 240 hours of instruction in the detection of the odor of illegal narcotics. During these courses, I personally observed my police canine partner Rico alert to the presence of the odor of illegal narcotics. My police canine partner Rico was certified to alert to the presence of marijuana, methamphetamine, cocaine and heroin. My police canine partner and I receive yearly certification from the Los Angeles County Police Canine Association in apprehension and narcotics detection. My police canine partner and I last certified in September 2023.

I am familiar and knowledgeable in the behaviors my police canine partner Rico engages in when he detects the presence of the odor of illegal narcotics. I conduct continual training with my police canine partner Rico by hiding various narcotics in different locations such as buildings, vehicles, bags, parcels and in open areas. This training includes proofing canine Rico on odors such as plastic, boxes, latex, tape, metal, currency (circulated and uncirculated), parcel packaging material, glass pipes and food. I also proof canine Rico of my human odor. This training is on-going and continual.

On May 21, 2024, my police canine partner and I assisted with a narcotic parcel investigation. Canine Rico alerted to the presence of the odor of illegal narcotics emitting from the following parcels.
